

The Port of Kalama located on the Columbia River in Southwest Washington, immediately off Interstate 5, 30 miles north of Portland, Oregon, and 120 miles south of Seattle, Washington. The Port of Kalama's industrial area includes five miles of Columbia River front, with a 43' navigation channel, and mainline rail service. This excellent transportation infrastructure makes the Port of Kalama ideally suited for businesses of all kinds. The Port of Kalama provides superior customer service and business support. Its offerings include shovel-ready industrial sites, move-in-ready industrial buildings, an industrial park, efficient marine terminals and easy access rail, river and highway. The Port of Kalama also offers high-bandwidth communications, with dual access fiber-optic service to Seattle and Portland.
